How to Use the Contract

The contract covers eight zones across the state. Check the Zone listing (on page 6) to determine the city or town where you will have the heating fuel delivered. There are two categories for purchasing heating fuel.

Category 1, Indexed Pricing: Price changes daily. See pricing and buying details below. Each zone has one awarded contractor. These contractors are responsible for servicing the eligible users within that zone. Contact the vendor responsible for that Zone to discuss locations, account requirements and arrange for delivery.

Category 2, Fixed Pricing-No. 2 Heating Oil Only: Fixed adder over the weighted average price of the NYMEX. Each zone has at least one awarded contractor. These contractors are responsible for servicing the eligible users within that zone. A minimum of 42,000 gallons must be purchased by the eligible entity. It is at the discretion of the vendor to enter into any agreements less than 42,000 gallons.

It is strongly encouraged that eligible entities solicit quotes in zones with multiple awarded vendors. The weighted average will be determined at time of purchase between the eligible entity and the vendor by averaging the number of months and/or gallons needed. Eligible entities reserve the right to roll over purchases to additional months if needed. It is the responsibility of the vendor and eligible entity to come to a decision of how unused gallons will be handled prior to entering into an agreement.
